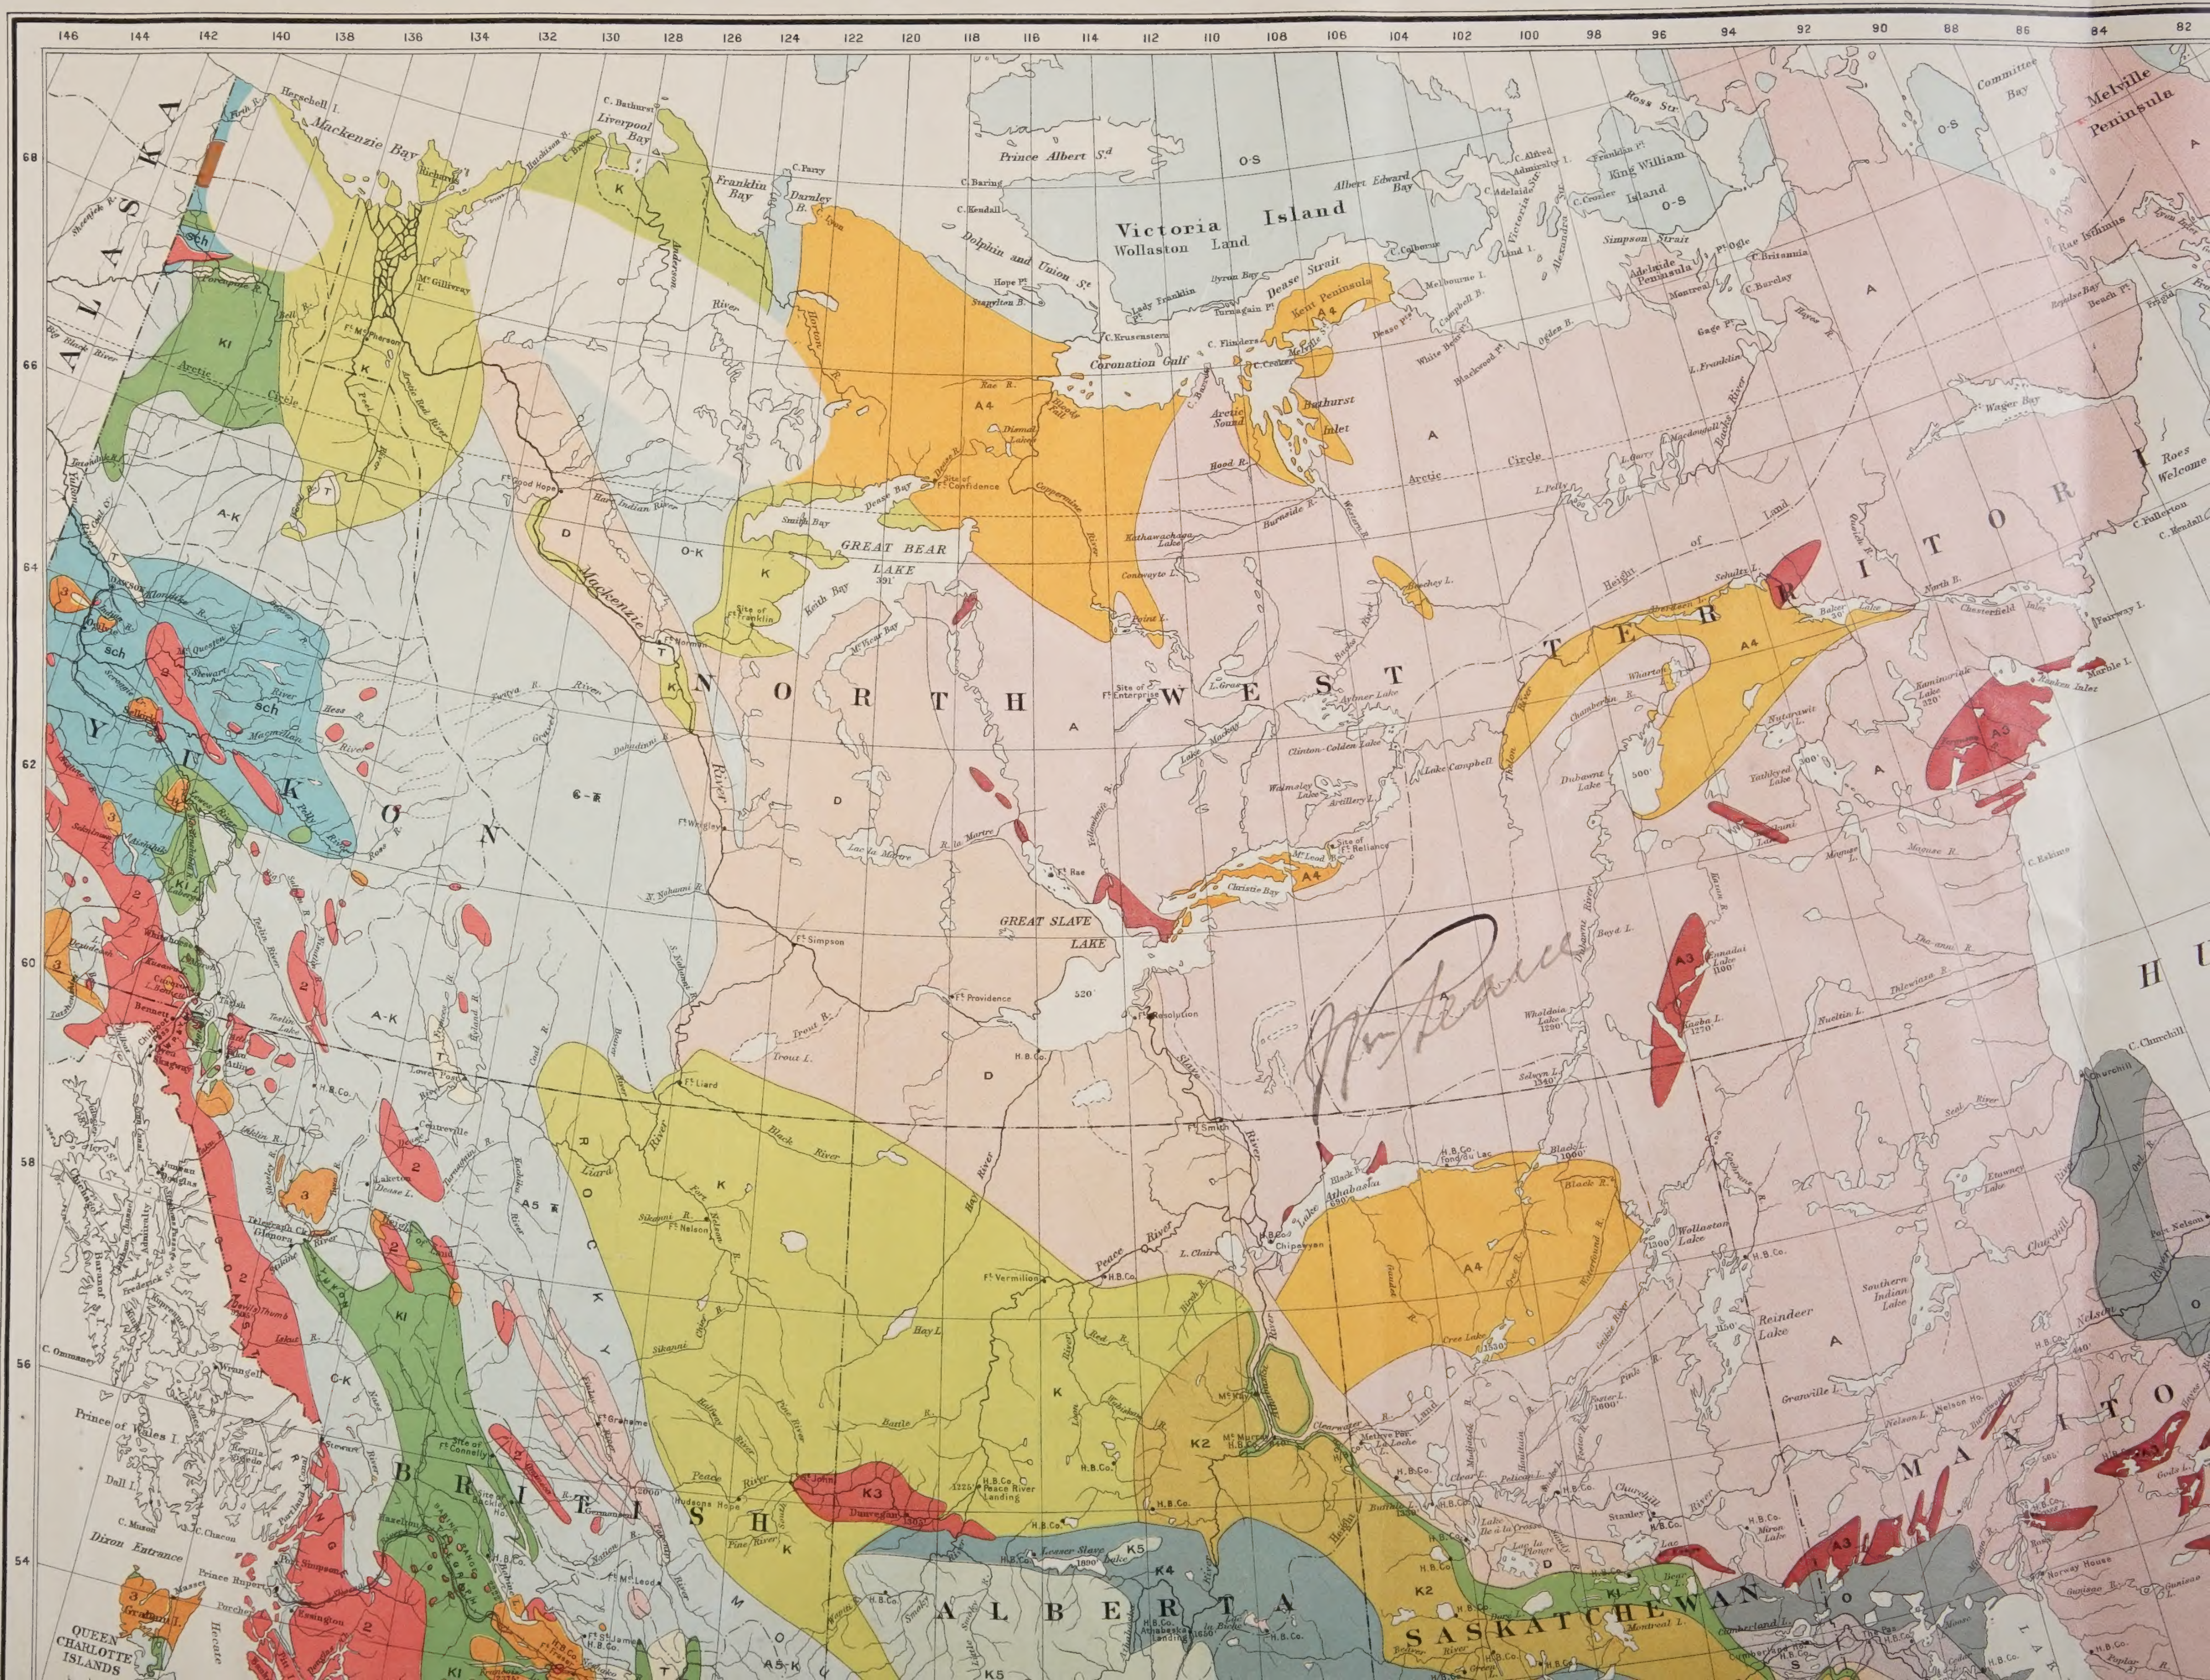
LEGEND

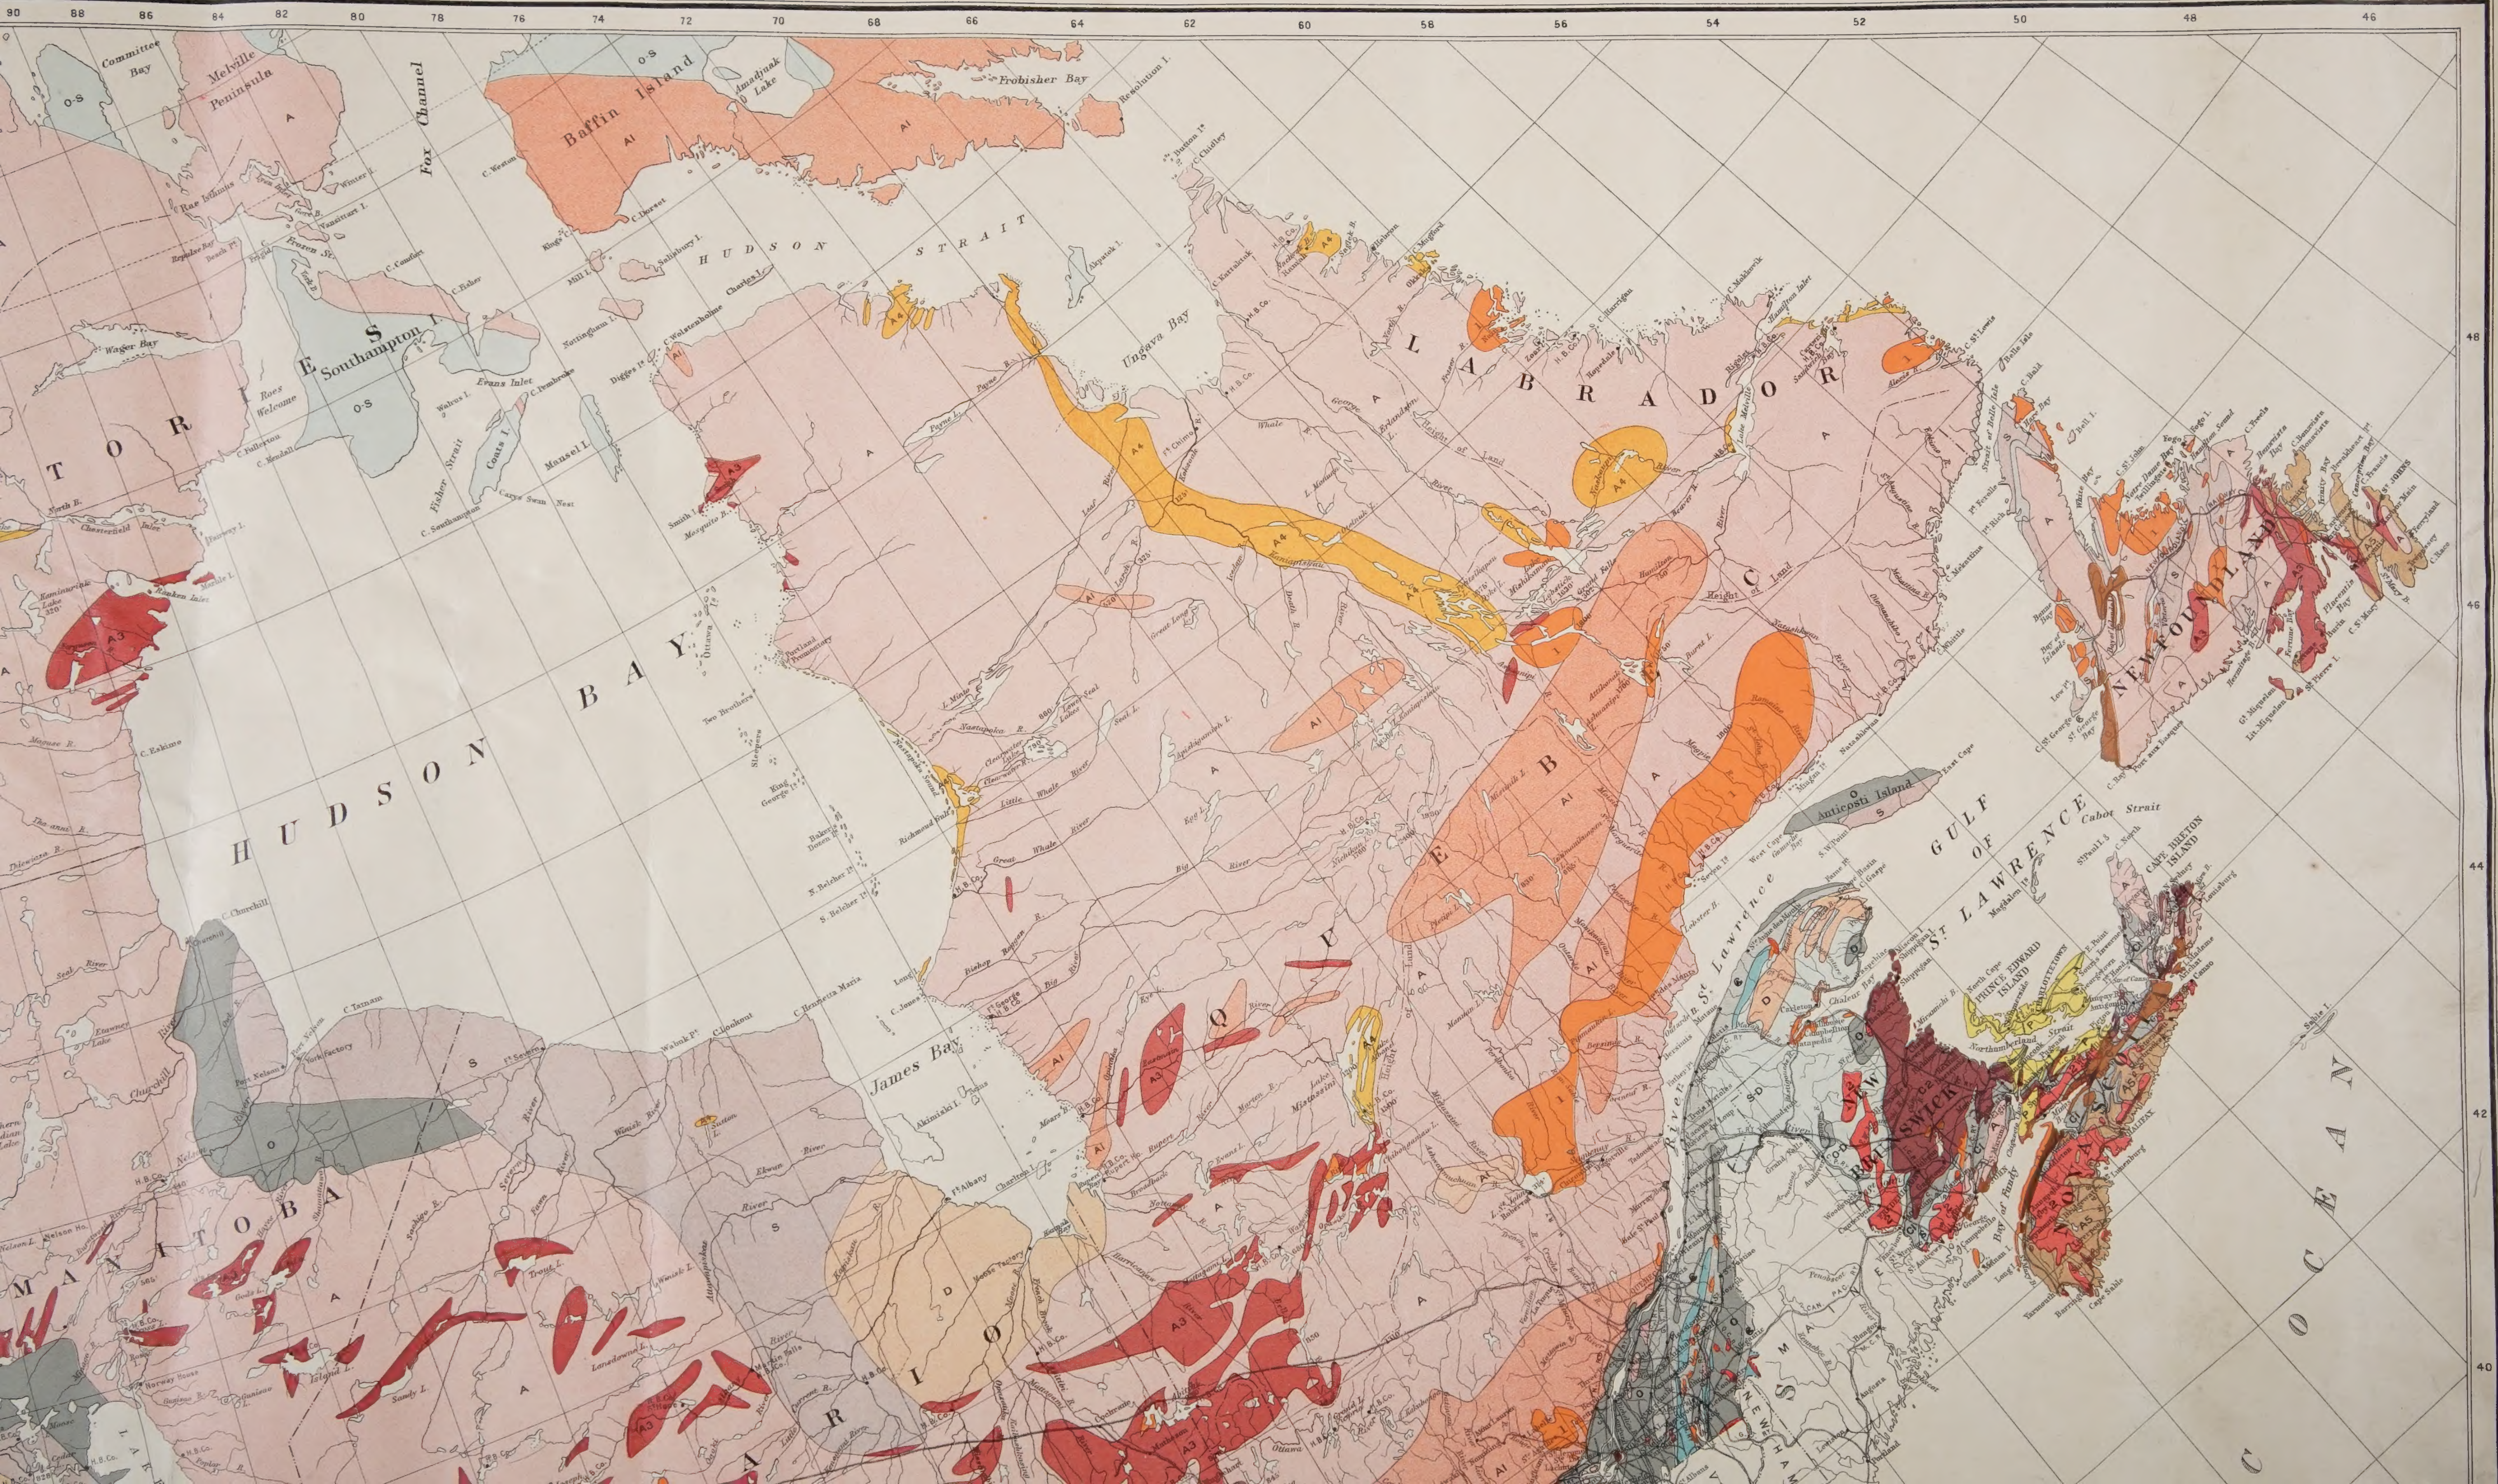
Era	Symbol	Name
TERTIARY	T	Sedimentary rocks
MESOZOIC	K5	Edmonton
	K4	Foxhill and Pierre
	K3	Belly River
	K2	Benton and Niobrara
	KI	Cretaceous (and or) Jurassic (*chiefly Lower Cretaceous*)
	K	
	[illegible]	Triassic
PALÆOZOIC	P	Permian and Upper Carboniferous
	C2	Pennsylvanian
	CI	Mississippian
	C	Carboniferous and Devonian
	D	Devonian
	S	Silurian
	O	Ordovician
	Є	Lower Ordovician and Cambrian
-CAMBRIAN	A5	Late Pre-Cambrian or Cambrian
	A4	Keweenawan, Animikie, etc.
	A3	

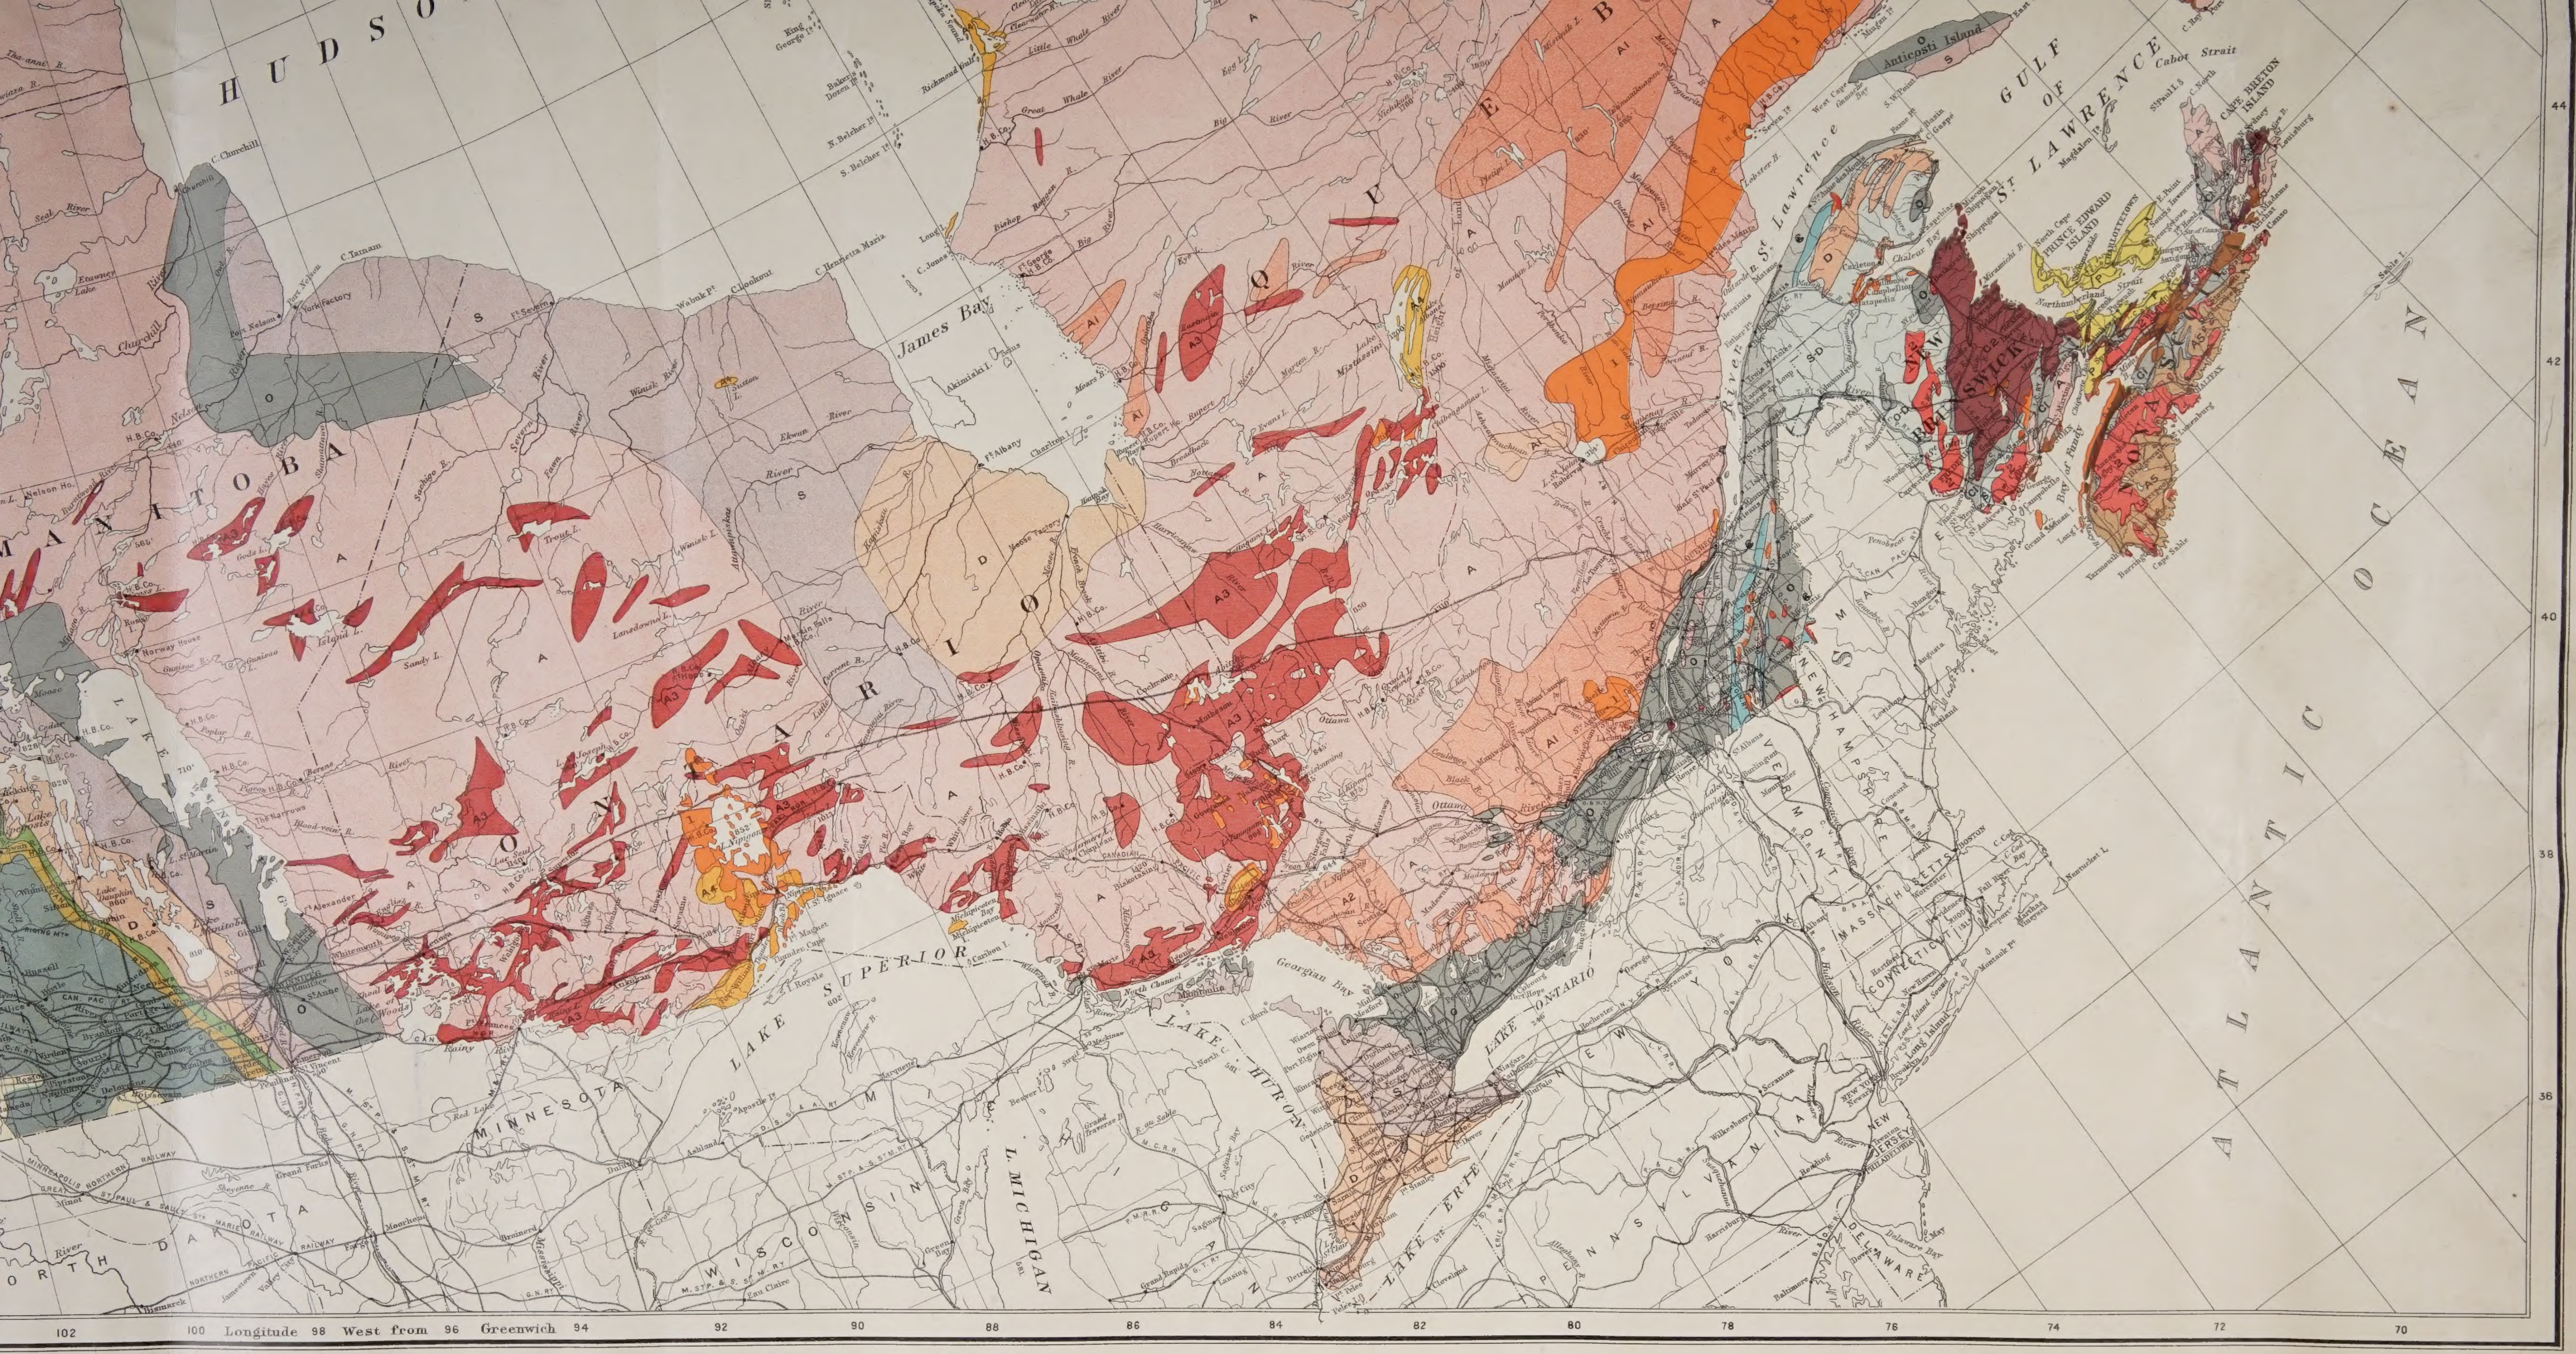
Symbol	Name
	Unclassified, chiefly Palæozoic
sch	Schists, gneisses, etc., and intrusives (*chiefly Palæozoic and Pre-Cambrian*)
AI	Pre-Cambrian schists, etc., and granites (*chiefly deformed sediments and granitic rocks*)
A	Laurentian and undivided Pre-Cambrian (*chiefly granites and granite-gneisses*)



Canada
Department of Mines
GEOLOGICAL SURVEY

HON. L. CODERRE, MINISTER, A. P. LOW, DEPUTY MINISTER
R. W. BROCK, DIRECTOR.





MAP 91A
(Issued 1913)

Geological Map
# of the
DOMINION OF CANADA
AND NEWFOUNDLAND

Scale, $\frac{1}{6{,}336{,}000}$

Miles
100 0 100 200 300

Kilometres
100 0 100 200 300 400

100 MILES TO 1 INCH

1277

Geographical base from engraved plates of the Department of the Interior.
Geology of Newfoundland from official map of the colony.
Geology compiled by G. A. Young

[illegible]	Triassic

PALÆOZOIC

P	Permian and Upper Carboniferous
C2	Pennsylvanian
C1	Mississippian
C	Carboniferous and Devonian
D	Devonian
S	Silurian
O	Ordovician
Є	Lower Ordovician and Cambrian

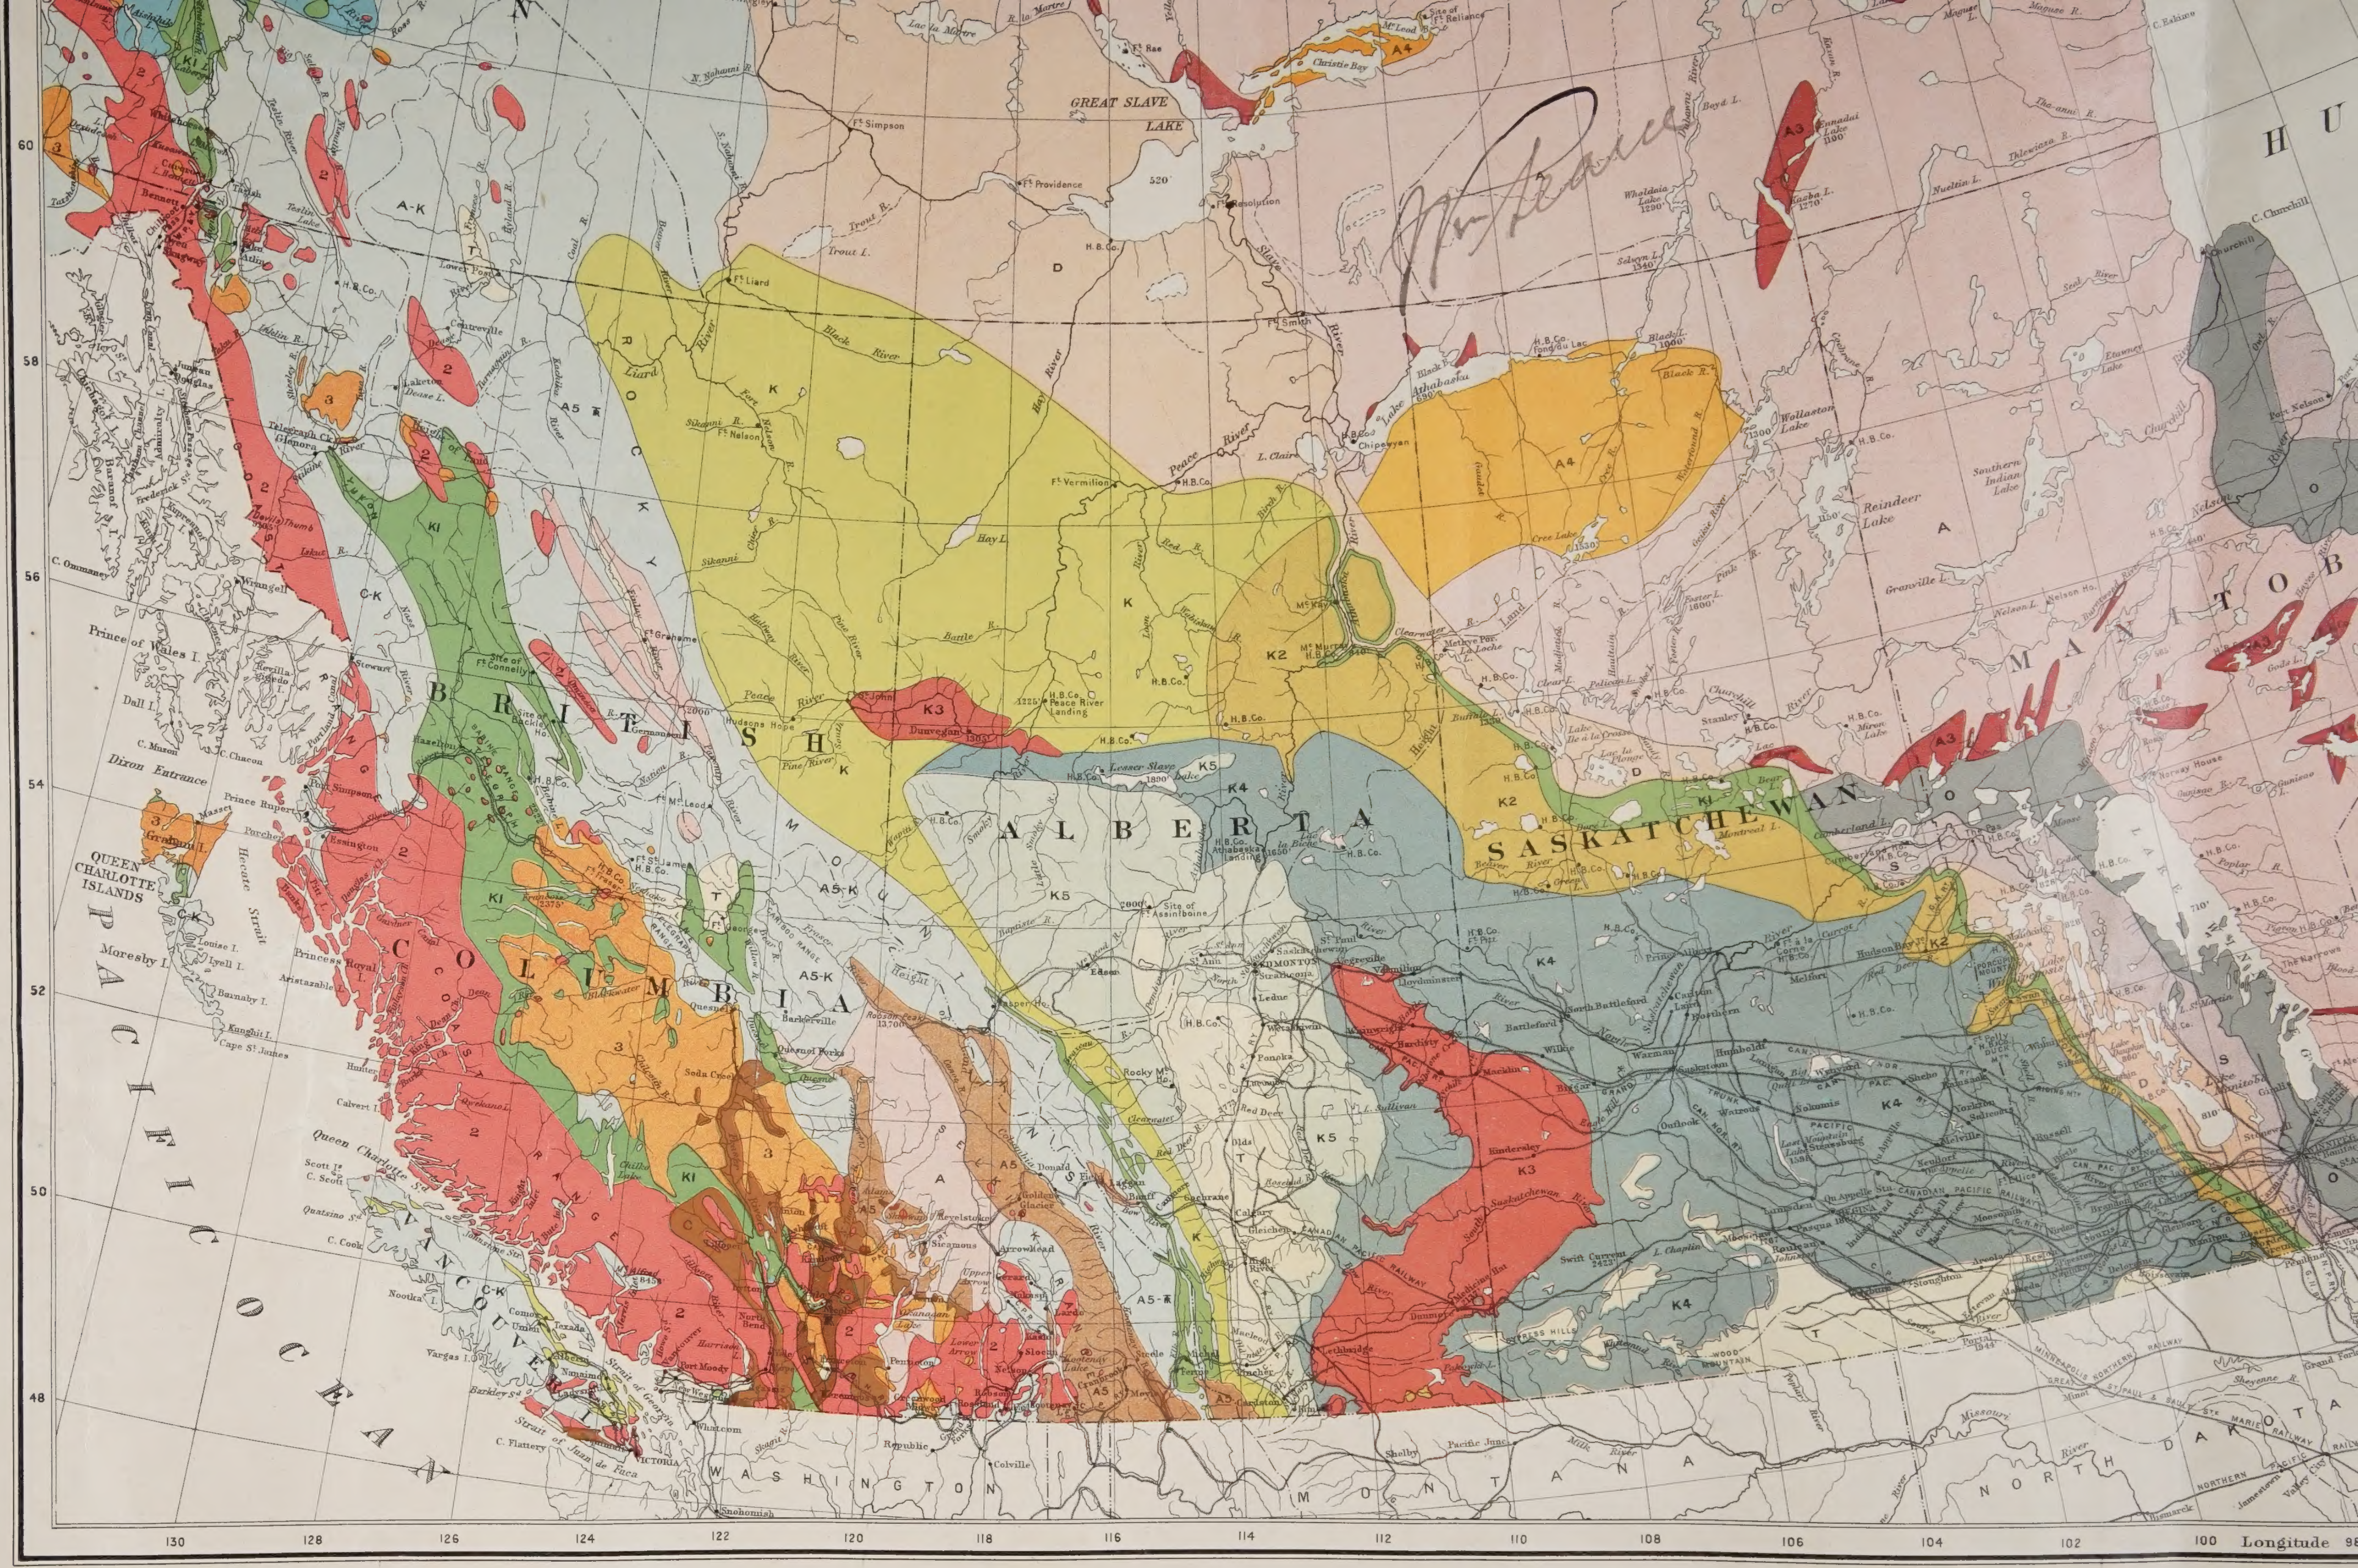
PRE-CAMBRIAN

A5	Late Pre-Cambrian or Cambrian
A4	Keweenawan, Animikie, etc.
A3	Lower Huronian, Keewatin, etc.
A2	Grenville-Hastings

▭	Unclassified, chiefly Palæozoic
sch	Schists, gneisses, etc., and intrusives (*chiefly Palæozoic and Pre-Cambrian*)
A1	Pre-Cambrian schists, etc., and granites (*chiefly deformed sediments and granitic rocks*)
A	Laurentian and undivided Pre-Cambrian (*chiefly granites and granite-gneisses*)

Igneous

3	Tertiary effusives
2	Granite, etc.
1	Diabase, Anorthosite, etc.



C-O. Senécal, Geographer and Chief Draughtsman.
